Administration is to provide a report back to Council by May 30, 2014. ”

BACKGROUND:

Planning and Development began work, in collaboration with the three School Boards, in the fall of 2013 to prepare a long-term school site plan. Along with a number of considerations, this study is looking at the roles of the school jurisdictions and the City with regard to future school sites.

The above request could be added to this broader report. The original intent was to bring the report to Council in April. However, if this work was added to the study, it would be delayed but could be brought to Council by the end of May, as requested in this motion.
