

## CITY COUNCIL AGENDA REPORT

**Subject: REQUEST FOR TIME EXTENSION**

### **Recommendation:**

That the requested deadline extensions for the following reports be approved:

- Frame Work for Funding Not-For-Profits - to November 7, 2016
- Report on Recreation & Culture Subsidy Program & Transit Subsidy Comparisons with other Communities - to November 7, 2016
- Fibre Network Engineering Design Principles to Q2 2017

### **Council Direction:**

#### Frame Work for Funding Not-For-Profits

On April 20, 2015 Council passed the following motion:

#### (C199-2015)

That the City Manager propose a framework for not-for-profit applications for annual municipal funding with eligibility and limit criteria by Q3 2016.

#### Report on Recreation & Culture Subsidy Program & Transit Subsidy Comparisons with other Communities

On February 16, 2016, Council passed the following motion:

#### (C75-2016)

That Administration provide a report to Council by the end of Q3 - 2016 pertaining to but not limited to our "Recreation and Culture Subsidy Program" and Transit Subsidies, that provides comparative information regarding the levels and extents of subsidies provided by other Cities in Alberta, with recommendations for amendments to our current policy.

Fibre Network Engineering Design Principles

On June 22, 2015 Council passed the following motions:

(C328-2015)

1. That the June 22, 2015 Agenda Report entitled "LED Lighting and Fibre Networks Engineering Design Principles" be received as information.
2. That Administration report back to Council in Q1 of 2016 with the results of consultations with the members of the Development Industry on Fibre Networks.

**Report:**

Framework for Funding Not-For-Profits

In an attempt to manage the volume of items on the September 19, 2016 Council Agenda, it is requested that this Agenda Item be moved to the November 7, 2016 Regular Council Meeting.

Report on Recreation & Culture Subsidy Program & Transit Subsidy Comparisons with other Communities

In an attempt to manage the volume of items on the September 19, 2016 Council Agenda, it is requested that this Agenda Item be moved to the November 7, 2016 Regular Council Meeting.

Fibre Network Engineering Design Principles

The June 22, 2015 Agenda Report identified that there is a strong connection between the work being completed by Administration on the "St. Albert Broadband/Network Review" and the Fibre Networks Engineering Design Principles as identified below:

"As part of the Municipal Area Network - Phase 1 work, scoping of implications to the Development Industry and to the City is being completed by IBI Group, the contractor on that project. Their report is due back in Q4 2015."

The work on the "St. Albert Broadband/Network Review" is scheduled to be returned to Council in Q2 2017 and the request is to align the Fibre Networks Engineering Design Principles with this review.
